

**PROFESSIONAL DIRECTORY**  
Coaches • Consultants • Organizers • Trainers

Welcome to the LeeLogic™ Professional Directory

We're proud to offer the most innovative Professional Directory available. In over 20 years as an Organizer and Consultant, I have never had the ability to truly advertise my products and services in the variety of ways the LeeLogic™ Professional Directory offers you. We have provided affordable ways for you to expand your client base and develop monthly residual income. Show **your** personality and create targeted marketing opportunities for your business growth.

We are pleased to offer Professional Organizers, Coaches, Consultants and Trainers MobilLogic® training, with NO COST to join a group, and a FREE Basic Listing in the LeeLogic™ Professional Organizer Directory. If you choose a low-cost Select or Premium Profile, you also have the opportunity to add images, media and more to your Profile.

I've used many types of organizing products and software, working against the limitations placed on the various systems by other developers. Because of these issues, I began to ask lots of questions of my clients and also of other professionals. Out of this process, we have developed MobilLogic® -- an excellent product for you to use and offer to your Commercial and Residential clients.

MobilLogic® has been built with my fellow Professionals in mind. It is easy for you to offer to clients and contacts through unique LogicLinks.™ These unique digital links ensure you get residual income credit and can be easily shared in websites, social media, email signatures and more. There is no software to install. Sign up, Share, Get Paid. It's that simple. Get your LogicLinks here: <https://www.mobillogic.com/distributors2/>

What's more, your clients have access to online training and tutorials after sign up, so they are supported and can learn more any time they choose.

Our users call MobilLogic® "Intuitive" and describe it as "A True Turn Key Solution". As a hybrid cloud solution, it is accessible via any internet connection. You can develop your own special method of using and teaching the application, both in person and via web classes. Use your methods and Expand Your Client Base. Geography is no longer a limitation for you because you have a cloud-based organizing solution for Commercial and Residential use – anywhere.

If you would like to discuss your ideas with me, please call and I will be happy to help you develop a plan to use this great organizing tool to grow your business.

Sincerely,

**Lee Donald**
